

Science: the biggest drama in class.

R. Peleg – educator and actor

TEMI will make use of mysteries in order to stimulate critical and creative thinking, revealing the process behind the solutions to scientific problems, helping to develop enquiry skills and stimulating reasoning, inferring and speculation.

Teaching Enquiry with Mysteries Incorporated: a project centred on IBSE professional development workshops for in-service and pre-service science teachers. (Fp7 SiS) teachingmysteries.eu

FP7-Science-in-Society-2012-1, Grant Agreement N, 321403

Co-funded by
the Seventh Framework Programme
of the European Union

what you need

- ① this postcard
- ② a pair of scissors
- ③ a pencil

how to do it

- ① cut out the disc along the dotted line
- ② pierce the pencil through the centre of the disc and stand in front of a mirror with the drawing facing it
- ③ twirl the pencil quickly and look through the slits

Can you solve the mystery of the dancing lady?

How does it work? Find out on
